

Learning@hand Forum

Cairns Convention Centre, 29–30 April 2012

Showcasing the mobile learning (mLearning) and hand-held technology that is empowering teachers and students to improve learning outcomes.

Leading mLearning and Indigenous keynote speakers:

Wayan Vota, Senior Director Inveneo, USA, and consultant at the World Bank

Victor Steffensen, Mulong, The Knowledge Revival Project

Theresa Feletar, eLearning in Remote Communities Advisor, Department of Education and Training

Chris Sarra, Executive Director Stronger Smarter Institute

- iPad workshops presented by slide2learn, and XO training delivered by One Laptop per Child
- Learn to use mobile and hand-held devices, including smart phones, tablets, XO laptops, portable game consoles, BeeBots and other mobile learning devices
- Implementing Curriculum to the Classroom and the National Curriculum using mobile devices
 - Using mobile devices to support and extend learning for students with disabilities
 - Question and answer panel with education and industry experts
- Oscar's Sketchbook and how it is inspiring today's students 120 years later
 - Stories from the classroom
- Networking reception
 - iPads for loan
 - Giveaways and prizes.

Learning@hand is a cross sectoral event for school leaders, teachers, Indigenous Education Workers and teacher aides.

Those with an interest in mobile learning and Indigenous education are also encouraged to attend.

Learning@hand is run by the Department of Education and Training's Division of Indigenous Education and Training Futures.
