## RTI 340/5/3748 – Explanatory notes

*The following may be attributed to a spokesperson for the Department of Education and Training*

---

State schools have discretion and flexibility about how they record the specific reasoning supporting Student Disciplinary Absences (Suspensions/Exclusions).

This is particularly relevant when recording SDAs under the category of “Physical Misconduct Involving an Object”.

Although schools do their best to clearly and comprehensively record the reason for disciplinary action against a student, there can be great variation between schools in how they report on similar SDAs.

The response to the Seven Network under this RTI application provides a spreadsheet with the results of a search of suspension and exclusion data in OneSchool for terms which relate to weapons. As per the request, the terms searched for included “gun”, “knife”, “scissors”, “bomb”, “explosive” and “device”.

In the interests of accuracy, it is important to note that the majority of the incidents matched to these search words do not involve the use of a “weapon” in the most common sense, but rather, the use of an item that is already present at the school, such as craft scissors or a knife used in home economics, and handling/using this in a manner that is not in line with a teacher direction. For example, using scissors to cut up a plastic container or damage a school desk and failing to cease on a teacher direction.

There are various references in the RTI response to “guns” and “bombs”. It is important to note that none of these incidents involved a student possessing an actual firearm or an incendiary device. Rather, these incidents involved items such as paint guns, hot glue guns and stink bombs.

In summary, it would be entirely inaccurate and misleading to suggest that the provided material records incidents involving genuine “bombs” or real “guns”.

Furthermore, references to items in this document may in fact represent a verbal reference — for instance, a word mentioned in a threat that resulted in disciplinary action without there being any physical object involved at all.

It is also important to note that the number of incidents does not equate to the number of students subject to a Student Disciplinary Absence.

One student may be suspended several times in a school year and each time that student is suspended it is recorded as a separate SDA.

A number of SDAs can also result from a single event where more than one student was involved.

SDA No	School Name	Geographic Region	Suspension Type	Reason Description	Suspension Date	Search Term Matched	Actual Words Matched
1		Far North Queensland	Short Suspension	Physical Misconduct involving Students involving an object	/2015	scissor	scissors (5)
